

SUPREME COURT OF THE STATE OF NEW YORK
COUNTY OF NEW YORK

-----X
JUSTIN SAPINI,

Index No. 160000/2024

Plaintiff,

-against-

**EXPERT WITNESS
EXCHANGE PURSUANT
TO CPLR 3101(d)**

ANTHONY F. FERRARA and METRO-NORTH COMMUTER
RAILROAD,

Defendants.
-----X

S I R S:

Pursuant to CPLR § 3121, CPLR §3101(d) and 22 NYCRR §202.17, the report of Dr. Jack W. Tsao, dated March 4, 2026, concerning the independent neurological examination of plaintiff, JUSTIN SAPINI, is annexed hereto and herewith served upon you.

PLEASE TAKE NOTICE, that responding defendants may rely upon the expert testimony of Dr. Jack W. Tsao during the trial of this action. If called, Dr. Tsao's testimony will be with regard to his findings, conclusions and opinions in accordance with his annexed report dated March 4, 2026.

PLEASE TAKE FURTHER NOTICE, that responding defendants reserve the right to amend/supplement this response, herein if any additional information becomes known/available.

Dated: Woodbury, New York
March 24, 2026

Yours, etc.

MILBER, MAKRIS, PLOUSADIS
& SEIDEN, LLP.

Claimant:	Justin Sapini
Date of Loss:	April 23, 2023
Specialty:	Neurology
Claim#:	SIR068120
File#:	22726002907

To Whom It May Concern:

As per your request, I examined the above referenced claimant for the purpose of an independent neurological evaluation on March 4, 2026 in my Manhattan, New York office. The claimant was driven to the examination. The claimant presented photo identification which was visually verified. He was evaluated in the presence of Emmaly Merced, who identifies as an IME watchdog.

History:

The claimant alleges that he injured his head, neck, bilateral shoulders, left wrist, right hand, back and bilateral knees when the car he was driving was sideswiped by a truck and struck the sidewalk on April 23, 2023. He reports that he hit his head on the headrest. The claimant presented the next day to Montefiore Nyack Hospital Emergency Room for evaluation and was discharged.

Treatment:

Following the reported accident, the claimant presented to a local facility for treatment. He states that he underwent left shoulder surgery on July 26, 2023.

Occupational Status:

The claimant was employed as financial adviser.

Past Medical History:

There are no reported illnesses, unrelated injuries or unrelated surgeries.

Present Medications:

None reported.

Present Complaints:

The claimant complained of dizziness, photosensitivity, difficult sleeping and headaches with no signs of distress. He also reports pain in his neck, mid and lower back and bilateral lower extremities. He reports paresthesia in the bilateral small fingers.

Claimant: Justin Sapini
Date of Loss: April 23, 2023
DOE: March 4, 2026

- Daily notes, from Sports Care Physical Therapy, dated 6/29/23 – 12/14/23
- Neurologic reports, from Dr. Peter Kwan, dated 5/31/23 and 9/6/23
- Follow-up neurologic reports, from Dr. Peter Kwan, dated 10/31/23 and 12/12/23

NEUROLOGICAL EXAMINATION

Physical Examination: The claimant is a 30-year-old male who stands 5'11" tall and weighs 195 pounds. He is not wearing or using any assistive or supportive device(s).

Gait: The claimant's gait is normal. The claimant is able to walk on heels and toes without assistance. The claimant is able to transfer himself to and from the examination table without any assistance.

Higher Cortical Function: The claimant is pleasant and cooperative. The claimants mood and affect are appropriate for the setting. The claimant is alert and oriented to person, place and time. Recent and remote memories are intact. Speech is fluent. There is no expressive or receptive aphasia. Immediate registration is within normal limits. Repetition is within normal limits. Naming is within normal limits. No agnosia. No right left confusion.

Cranial Nerves: No photophobia. Visual fields are grossly normal. The pupils are equal and reactive to light. Facial muscles are symmetric without signs of weakness. Sensation is intact over all three branches of the trigeminal nerve. Tongue and uvula are midline with good motility. There is no nystagmus. Extraocular movement intact. No dysarthria. Sternocleidomastoid power is full.

Head/Face: Atraumatic. No palpable mass or tenderness. No facial tics. No facial twitches. No Battle's sign. No nasal drainage. No raccoon eyes. Normocephalic.

Motor Examination: There are no fasciculations, twitches or jerks. There is no atrophy. No involuntary motor activity. No arm drift. Motor tone is within normal limits. Strength is five out of five throughout.

Cerebellar: No tremor. No dysmetria on finger-to-nose testing or heel-knee-shin testing. No ataxia with tandem gait.

Reflexes:

Triceps	Biceps	Brachioradialis	Knee	Ankle
R1+	R1+	R1+	R1+	R1+
L1+	L1+	L1+	L1+	L1+

Claimant: Justin Sapini
Date of Loss: April 23, 2023
DOE: March 4, 2026
Page 4 of 5

Sensory Examination: Sensation is normal throughout with exception of bilateral ulnar tingling.

Tinel's test is positive.

Range of Motion Testing

Range of motion testing is generally measured by goniometer and visual inspection. Normal range of motion is based on the AMA Guidelines, 5th Edition, pages 596-598.

There was no tenderness reproduced to palpation of the cervical and thoracolumbar spine. No associated spasm was noted. Spurling's test and Lhermitte's sign are negative. Straight leg raising was possible up to 90 degrees bilaterally in the sitting position (normal 90).

Range of motion of the cervical spine on flexion to 50 degrees (50 degrees normal), extension to 60 degrees (60 degrees normal), lateral bending to 45 degrees (45 degrees normal), right and left rotation to 80 degrees (80 degrees normal).

Range of motion of the lumbar spine reveals; flexion: 60 degrees (60 degrees normal), extension: 25 degrees (25 degrees normal), right and left lateral flexion: 25 degrees (25 degrees normal), right and left rotation: 30 degrees (30 degrees normal).

Diagnoses

- Status Post Post-Concussion Syndrome, objectively resolved
- Status Post Post-Traumatic Headaches/Migraines, objectively resolved
- Status Post Traumatic Brain Injury, objectively resolved
- Status Post Cervical Strain, objectively resolved
- Status Post Thoracic Strain, objectively resolved
- Status Post Lumbar Strain, objectively resolved
- Status post bilateral wrist injury with clinical evidence of incidental bilateral carpal tunnel syndrome

The claimant is able to work and perform activities of daily living without restrictions.

Attestation:

I, Jack Tsao, M.D., D.Phil., M.B.A., being a physician duly licensed to practice medicine in the State of New York, and am not a party to the above entitled action, pursuant to CPLR Section 2106, hereby affirms under the penalty of perjury that the statements contained herein are true and accurate. The above-captioned claimant was examined in accordance with the restrictive rules concerning an independent medical examination. It is therefore understood that no doctor-patient relationship exists or is implied by this examination.

Claimant: Justin Sapini
Date of Loss: April 23, 2023
DOE: March 4, 2026
Page 5 of 5

I hereby certify that this report is full and truthful presentation of my professional opinion with respect to the claimant's condition; that no person or entity has caused, directed or encouraged me to submit a report that differs substantially from my professional opinion as an independent medical examiner; and that I have reviewed the report and attest to its accuracy.

I, affirm this 4th day of March, 2026, under the penalties of perjury under the laws of New York, which may include a fine or imprisonment, that the foregoing is true, and I understand that this document may be filed in an action or proceeding in a court of law.

I affirm to having a scope of licensure or certification that typically manages the medical condition, procedure, treatment, or issue in this case. I have current, relevant, knowledge and experience to render an opinion for this case, and my opinions and conclusions are based solely upon the review of the records submitted as well as the results of my examination and/or review. There is no conflict of interest known to me regarding the specific case. I have received no financial incentive or compensation that is dependent in any way on the opinion I have rendered. No delegation of this examination and/or review was rendered.

Sincerely

Jack Tsao, M.D., D.Phil., M.B.A.
Board Certified Behavioral Neurology & Neuropsychiatry

Awards, Honors, and Memberships in Honorary Societies

03/1983 | Discover Magazine | National Science Essay Contest – Winner/Grand Prize Scholarship
 04/1983 | Boy Scouts of America | Eagle Scout
 09/1988 | United States Navy Health Professions Scholarship
 02/1989 | International Society for Heart Research | Upjohn Young Investigator Award Competition – Finalist
 10/1989 | State of Connecticut | Rhodes Scholarship – Finalist
 06/1990 | Johnson & Johnson | Research Assistantship – Harvard-MIT Division of Health Sciences and Technology
 06/1990 | Howard Hughes Medical Institute | Predoctoral Fellowship
 03/1993 | Peter Beaconsfield Prize in Physiology – Proxime Accessit
 02/2001 | White House Fellowship Program | Regional Finalist
 04/2001 | San Francisco Neurological Society | Henry Newman Award (for best clinical research paper by a neurology resident or fellow)
 06/2003 | American Philosophical Society | Daland Fellowship
 06/2003 | Selected for American Academy of Neurology Palatucci Advocacy Leadership Forum (Training for public advocacy project in neurology)

09/2004 | Selected as Advisor for American Academy of Neurology Palatucci Advocacy Leadership Forum (Training neurologists to undertake public advocacy projects)

05/2008 | American Medical Association Early Career Physician Leadership Award

03/2010 | American Academy of Neurology | Fellow

05/2014 | Center for Public-Private Partnerships at the Henry M. Jackson Foundation for the Advancement of Military Medicine | United States Navy Hero of Military Medicine Award

04/2016 | American Society for Clinical Investigation | Member

01/2020 | Phi Kappa Phi Honor Society | Member

02/2020 | Beta Gamma Sigma Honor Society | Member

05/2023 | Federal Asian Pacific American Council Navy Award Winner

Research Activity

Research Activities

My research program is focused on two areas – mild traumatic brain injury (TBI) and phantom limb pain (PLP) following amputation. I have firsthand experience evaluating and treating military Service members and Veterans who have sustained major limb loss and mild TBI/concussion in combat. The TBI research aims to investigate short- and long-term effects of mild TBI on cognitive functioning and early-onset dementia and other neurodegenerative disorders and, separately, the utility of computerized neurocognitive testing for the evaluation of acute concussion and recovery. As concussion remains a clinical diagnosis at this time, this effort addresses whether computerized cognitive testing can enable more accurate diagnoses of concussion to be rendered compared to standard sports and military sideline assessment of concussion tests. The PLP research seeks to investigate the etiology of this phenomenon, utilizing functional neuroimaging coupled with mirror therapy (creating a visual illusion of the amputated limb by having the amputee place a mirror between his/her intact and phantom limbs and then moving both while viewing the reflection of the intact limb moving) and a genetics approach to determine if there are gene(s) which modulate the onset and persistence of PLP.

Clinical Activity

I serve as an attending for the in-patient neurology ward and consult service and the out-patient clinic. I am responsible for patient care and teaching medical and allied health provider students along with neurology, internal medicine, and psychiatry residents. I also perform chemodenervation injections with Botox, Dysport, and Myobloc.

Education Activity

I currently teach medical students about traumatic brain injury and clinical neurology to neurology, internal medicine, and psychiatry residents. I have also taught courses for the American Academy of Neurology annual meeting and courses for neuroscience graduate students at both the Uniformed Services University of the Health Sciences and the University of Tennessee Health Science Center.

Teaching Activities

08/1995 – 12/1995 | CNRA | Teaching in graduate school | Introductory Neuroscience | CNRA students | Uniformed Services University of the Health Sciences | Weekly
 06/1997 – 06/1998 | Internal Medicine Clerkship | Teaching medical students | Internal Medicine Clerkship | Medical students | UCSF Hospital, SF General Hospital, San Francisco VA Medical Center | Daily
 07/1998 – 06/2001 | Neurology Clerkship | Teaching medical students | Neurology Clerkship | Medical students | UCSF Hospital, SF General Hospital, San Francisco VA Medical Center | Daily
 10/2001 – 06/2004 | Neurology Clerkship | Teaching family practice residents and USUHS medical students | Neurology Rotation | Family practice residents and USUHS medical students | Naval Hospital Jacksonville | Daily
 08/2004 – 11/2008 | Neurology Residency | Teaching neurology residents and USUHS medical students | Neurology Rotation | Neurology residents and USUHS medical students | Walter Reed Army Medical Center, National Naval Medical Center | Daily to monthly
 01/2006 – 12/2007 | Neuroscience Seminar | Teaching USUHS neuroscience graduate students | Selected Topics in Neuroscience | Graduate students | Uniformed Services University of the Health Sciences | Weekly

Curriculum development and other innovative educational activities

1/2006 – 12/2007 | Course development | Selected Topics in Neuroscience seminar series
 1/2016 – 1/2020 | Course development | NATO Mild Traumatic Brain Injury Lecture Series lectures on concussion

Invited Talks and Teaching of Peers

02/1996 | The Miami Project for Spinal Cord Research, University of Miami School of Medicine, Miami, FL – Slow Wallerian Degeneration in the C57BL/Ola Mouse Strain
 03/1996 | Department of Neuroscience, Walter Reed Army Institute of Research, Washington, DC – Slow Wallerian Degeneration in the C57BL/Ola Mouse Strain
 04/2003 | Tricare Region 3 Conference, Savannah, GA – Clinical Neurology Telemedicine Support System
 Tricare Regions 3 and 15

- 05/2004 | 25th Annual Army Medical Department Neurology Conference, Tacoma, WA – The Role of Anticholinergic Medications in the Development of Dementia
- 06/2007 | Grand Rounds, Neuroscience Division, Mayo Clinic Jacksonville, Jacksonville, FL – Mirror Therapy for Phantom Limb Pain and Changes in Cerebellar mRNA in the C57BL/6JdS Mouse
- 05/2007 | American Institute for Medical and Biological Engineering-Military Collaboration: Bioengineering Challenges of Brain Trauma, Washington, DC – Imaging: The Current State of Technology and Challenges
- 05/2007 | Illumina User Group Meeting, Siena, Italy – Differential splicing of mRNA from genes clustered on mouse chromosome 11, including Kif3a, is altered by expression of the Wlds neuroprotective gene
- 09/2007 | Combat Amputee Consensus Conference, San Antonio, TX – Pain Management in the Amputee
- 05/2008 | European Regional Medical Command Spring Medical Surgical/Behavioral Science Conference, Sonthofen, Germany – Use of Mirror Therapy to Treat Phantom Limb Pain after Amputation
- 02/2008 | Warfighter Nutrition Conference: Advanced Technologies and Opportunities, Bethesda, MD – Medical and Nutritional Challenges during Reset and Healing for TBI
- 03/2008 | Grand Rounds, Department of Neurology, Wayne State University Medical Center, Detroit, MI – Use of Mirror Therapy to Treat Phantom Limb Pain after Amputation
- 10/2008 | Dana Foundation, Washington, DC – Functional Magnetic Resonance Imaging of Cortical Changes and Phantom Limb Pain in Amputees
- 03/2009 | Medical Grand Rounds, National Rehabilitation Hospital, Washington, DC – Use of Mirror Therapy to Treat Amputee Phantom Limb Pain
- 04/2009 | 48th Navy and Marine Corps Public Health Conference, Hampton, VA – Psychological Health in the Active Duty Service Member
- 04/2009 | 48th Navy and Marine Corps Public Health Conference, Hampton, VA – Traumatic Brain Injury and Care Coordination
- 10/2009 | 10th Battlefield Healthcare Conference, San Diego, CA – Mirror Therapy for Amputee Wounded Warriors
- 10/2009 | 3rd Annual TBI Military Training Conference, Washington, DC – TBI Program Development – Lessons Learned and the Road Ahead
- 11/2009 | 3rd Annual American Telemedicine Association Mid-Year Meeting, Palm Springs, CA – US Navy Tele-TBI Overview
- 03/2010 | 12th Battlefield Healthcare Conference, Washington, DC – Mirror Therapy for Amputee Wounded Warriors
- 09/2010 | Karolinska Institutet 200 Years Anniversary Symposium on Traumatic Injuries of the Nervous System,

Stockholm, Sweden – Use of Mirror Therapy for the Treatment of Phantom Limb Pain

10/2010 | Grand Rounds, Department of Military Sports Medicine, Uniformed Services University of the Health Sciences, Bethesda, MD – Concussion Diagnosis and Management

12/2010 | 64th Annual American Epilepsy Society Meeting, San Antonio, TX – DoD Policy on Treatment of Seizures and Protocols for Prophylaxis of Seizure in TBI

05/2011 | UK Ministry of Defence Medical Services Head Injuries Symposium, Birmingham, UK – TBI – The US Approach

05/2011 | 3rd Annual Marcus Evans Military Health Conference, San Antonio, TX – Examining TBI to Improve Treatment and Prevention

05/2011 | Uniformed Services Academy of Family Physicians Annual Meeting & Exposition, Palm Springs, CA – Mild Traumatic Brain Injury

06/2011 | Primer Congreso Interamericano de Lesiones por Accidentes, Asuncion, Paraguay – Indications of Amputation and Management of an Amputated Patient

06/2011 | Primer Congreso Interamericano de Lesiones por Accidentes, Asuncion, Paraguay – Management of Mild Traumatic Brain Injury

06/2011 | Primer Congreso Interamericano de Lesiones por Accidentes, Asuncion, Paraguay – Therapeutic Modalities in the Injured Spinal Cord and Brain

09/2011 | 8th Annual World Congress of the International Brain Mapping & Intraoperative Surgical Planning Society, San Francisco, CA – Mirror Therapy for Phantom Limb Pain

10/2011 | AMSUS 117th Annual Meeting, San Antonio, TX – Mild Traumatic Brain Injury

02/2013 | Discussant, Brainwave: Illusion Special Film Series, Museum of Art, New York, NY – Use of Mirror Therapy to Treat Phantom Limb Pain

04/2013 | 12th Annual Design of Medical Devices Conference, Minneapolis, MN – Using Mirrors to Treat Phantom Limb Pain

05/2012 | 1st Andean Subject Matter Expert Exchange on Management of Amputations in the Military Setting, Lima, Peru – Pain Treatment in the Traumatic Amputee

5/2013 | Grand Rounds, Department of Psychiatry, Walter Reed National Military Medical Center, Bethesda, MD – Use of Mirror Therapy for Treating Phantom Limb Pain

06/2013 | Grand Rounds, Department of Neurology, Mayo Clinic Jacksonville, Jacksonville, FL – Phantom Limb Pain – Theories & Therapies

06/2013 | 39th Academy Annual Meeting & Scientific Symposium, American Academy of Orthotists and Prosthetists, Orlando, FL – Using Mirror Therapy to Treat Phantom Limb Pain

09/2013 | Institute of Medicine/National Research Council Workshop on Sports-Related Concussions in Youth, Washington, DC – Navy and Marine Corps TBI Efforts

- 09/2013 | Grand Rounds, Department of Neurology, Thomas Jefferson University Hospital, Philadelphia, PA – Phantom Limb Pain – Theories & Therapies
- 10/2013 | Grand Rounds, Department of Neurology, University of Tennessee Health Science Center, Memphis, TN – Phantom Limb Pain: Theories & Therapies
- 10/2013 | Functional Amputee Support Team of Southern California Meeting on Treating Amputee Phantom Limb Pain – Using Mirror Therapy to Treat Phantom Limb Pain
- 11/2013 | Grand Rounds, Department of Neurology, New York University Hospital, New York, NY – Traumatic Brain Injury Care in the Military
- 12/2013 | Grand Rounds, Department of Physical Medicine & Rehabilitation, Walter Reed National Military Medical Center, Bethesda, MD – Use of Mirror Therapy for Treating Phantom Limb Pain
- 04/2014 | 66th Annual American Academy of Neurology Meeting, Philadelphia, PA – Brain Health Fair: Traumatic Brain Injury in the Military
- 05/2014 | Grand Rounds, Department of Neurology, University of Tennessee Health Science Center, Memphis, TN – Traumatic Brain Injury
- 05/2014 | Grand Rounds, Veterans Affairs Amputation System of Care/Extremity and Amputee Center of Excellence, Washington, DC – Phantom Limb Pain – Theories & Therapies
- 04/2015 | 31st Annual Meeting of the American Academy of Pain Medicine, Washington, DC – Emerging Rehabilitation Approaches to Phantom Limb Pain. Yes, It's All in Your Head: Functional Imaging of Brain Activity Before and After Mirror Therapy
- 08/2015 | Amputee Coalition 2015 National Conference, Tucson, AZ – Phantom Limb Pain: Theories and Therapies
- 10/2015 | REHABILITACION 2015 8th International Cuban Congress on Rehabilitation, Havana, Cuba – Las Etiologías y Uso de la Terapia del Espejo para el Dolor del Miembro Fantasma
- 11/2015 | Grand Rounds, Department of Neurology, Emory University School of Medicine, Atlanta, GA – Concussion: A Common Civilian and Military Medical Problem
- 02/2017 | Lower Extremity Amputation Care...Stepping Through the Continuum, Detroit Medical Center Rehabilitation Institute of Michigan, Detroit, MI – Phantom Limb Pain and Mirror Therapy
- 04/2017 | 69th American Academy of Neurology Annual Meeting, Boston, MA – Office of the Future: Your Practice a Decade in the Future
- 06/2017 | Navy Reserve Operational Medical Symposium, Camp Lejeune, NC – Phantom Limb Pain
- 09/2017 | Singapore Traumatic Brain Injury Symposium 2017: Meeting Challenges Through Precision, Singapore – Effects of Blast Exposure in the Military: Who is at Risk?
- 09/2017 | Singapore Traumatic Brain Injury Symposium 2017: Meeting Challenges Through Precision, Singapore – Concussion in Sports: Management and Controversies
- 10/2017 | Grand Rounds, Department of Neurology, University of Rochester School of Medicine, Rochester, NY

– Phantom Limb Pain: Theories and Therapies

03/2018 | Grand Rounds, Department of Neurology, Penn State Milton S. Hershey Medical Center, Hershey, PA –
| Phantom Limb Pain: Theories and Therapies

04/2018 | Grand Rounds, Department of Neurology, Geisinger Medical Center, Danville, PA – Phantom Limb
Pain: Theories and Therapies

04/2018 | 70th American Academy of Neurology Annual Meeting, Los Angeles, CA – Office of the Future: Your
Practice a Decade in the Future Plenary Session

04/2018 | 70th American Academy of Neurology Annual Meeting, Los Angeles, CA – Controversies in Neurology
Plenary Session: Yes: Would You Let Your Child Play Contact Sports?

08/2018 | Amputee Coalition 2018 National Conference, Tucson, AZ – Giving Back to the Limb Loss
Community: Getting Involved with Research

08/2018 | Amputee Coalition 2018 National Conference, Tucson, AZ – Advances in Limb Loss Research Panel
Discussion

10/2018 | American Academy of Neurology Fall Conference, Las Vegas, NV – Controversies in Neurology Plenary
Session: No: Would You Let Your Child Play Contact Sports?

8/2021 | 1st International Conference on Phantom Limb Pain, Gothenburg, Sweden – Phantom Limb Pain:
Theories and Therapies

2/2024 | Grand Rounds, Department of Neurology, Oregon Health & Science University, Portland, OR – Phantom
Limb Pain

Mentoring and Advising

As the principal investigator, supervised and/or mentored

06/2006 – 09/2006 | *Kelly Swanberg | College Student Research Assistant | Mentor | Uniformed Services
University of the Health Sciences

06/2006 – 09/2006 | *Abigail Clark | College Student Research Assistant | Mentor | Uniformed Services
University of the Health Sciences

06/2006 – 09/2006 | *Mark Iscoe | College Student Research Assistant | Mentor | Uniformed Services University
of the Health Sciences

06/2006 – 04/2007 | *Brenda Chan | College Student Research Assistant | Mentor | Uniformed Services University
of the Health Sciences

06/2006 – 04/2008 | *Alexandra Charrow | College Student Research Assistant | Mentor | Uniformed Services
University of the Health Sciences

06/2006 – 06/2007 | *Katie Hughes | Postbaccalaureate Research Assistant | Mentor | Uniformed Services
University of the Health Sciences

06/2006 – 08/2008 | *Lindsay Hussey-Anderson | Postbaccalaureate Research Assistant | Mentor | Uniformed
Services University of the Health Sciences

06/2006 – 06/2007 | *Mattias Wolde | High School Student | Mentor | Uniformed Services University of the
Health Sciences

06/2007 – 06/2008 | *Sonja Dumanis | Postbaccalaureate Research Assistant | Mentor | Uniformed Services University of the Health Sciences

06/2007 – 09/2007 | *Julia Kline | Postbaccalaureate Research Assistant | Mentor | Uniformed Services University of the Health Sciences

06/2007 – 06/2009 | *Alicia Janos | Postbaccalaureate Research Assistant | Mentor | Uniformed Services University of the Health Sciences

06/2007 – 06/2010 | *Michelle Paggi | Postbaccalaureate Research Assistant | Mentor | Uniformed Services University of the Health Sciences

06/2007 – 06/2010 | *Victoria Anderson-Barnes | Postbaccalaureate Research Assistant | Mentor | Uniformed Services University of the Health Sciences

06/2008 – 09/2008 | *Caitlin McAuliffe | College Student Research Assistant | Mentor | Uniformed Services University of the Health Sciences

06/2008 – 09/2008 | *Katie Boothe | College Student Research Assistant | Mentor | Uniformed Services University of the Health Sciences

06/2008 – 09/2008 | *H. Richard Lee | College Student Research Assistant | Mentor | Uniformed Services University of the Health Sciences

06/2008 – 06/2010 | *Sharon Weeks | Postbaccalaureate Research Assistant | Mentor | Uniformed Services University of the Health Sciences

06/2008 – 06/2010 | *Chiew-Jen Ong | Postbaccalaureate Research Assistant | Mentor | Uniformed Services University of the Health Sciences

06/2009 – 06/2010 | *Lauren Stentz | High School Student | Mentor | Uniformed Services University of the Health Sciences

06/2010 – 06/2011 | *Natalie Cygan | Postbaccalaureate Research Assistant | Mentor | Uniformed Services University of the Health Sciences

09/2010 – 06/2011 | *Molly Schaffer | Medical Student | Mentor | Uniformed Services University of the Health Sciences

06/2011 – 09/2011 | *Jana Kieley | College Student Research Assistant | Mentor | Uniformed Services University of the Health Sciences

06/2012 – 09/2012 | *Katja Sher | College Student Research Assistant | Mentor | Uniformed Services University of the Health Sciences

09/2012 – 06/2012 | *Ilana Yurkiewicz | Postbaccalaureate Research Assistant | Mentor | Uniformed Services University of the Health Sciences

09/2012 – 06/2015 | *Brett Monson | Postbaccalaureate Research Assistant | Mentor | Uniformed Services University of the Health Sciences

09/2012 – 06/2014 | *Aimee Alphonso | Postbaccalaureate Research Assistant | Mentor | Uniformed Services University of the Health Sciences

09/2012 – 06/2014 | *Ian Murphy | Postbaccalaureate Research Assistant | Mentor | Uniformed Services University of the Health Sciences

09/2012 – 06/2015 | *Sarah Griffin | Postbaccalaureate Research Assistant | Mentor | Uniformed Services University of the Health Sciences

09/2013 – 06/2015 | *Briana Perry | Postbaccalaureate Research Assistant | Mentor | Uniformed Services University of the Health Sciences

01/2014 – 04/2014 | *Kayla McFarland | College Student Research Assistant | Mentor | Uniformed Services University of the Health Sciences

09/2014 – 06/2016 | *Kristin Yu | Postbaccalaureate Research Assistant | Mentor | Uniformed Services University of the Health Sciences
09/2014 – 06/2016 | *Monica Tung | Postbaccalaureate Research Assistant | Mentor | Uniformed Services University of the Health Sciences
06/2014 – 09/2014 | *Laura Lu | Predoctoral Research Assistant | Mentor | Uniformed Services University of the Health Sciences
09/2014 – 06/2016 | *Antonio Cravalho | Postbaccalaureate Research Assistant | Mentor | Uniformed Services University of the Health Sciences
09/2015 – 06/2017 | *Sacha Finn | Postbaccalaureate Research Assistant | Mentor | Uniformed Services University of the Health Sciences
09/2015 – 06/2017 | *Ariana Gover-Chamlou | Postbaccalaureate Research Assistant | Mentor | Uniformed Services University of the Health Sciences
09/2015 – 06/2017 | *Danielle McKean | Postbaccalaureate Research Assistant | Mentor | University of Tennessee Health Science Center
09/2015 – 05/2022 | *Violeta Pellicer-Morata | Predoctoral student | Mentor | University of Tennessee Health Science Center
03/2016 – 06/2018 | *Kassondra Collins | Predoctoral Student | Mentor | University of Tennessee Health Science Center
09/2016 – 08/2017 | *Katherine Robinson-Freeman | Postbaccalaureate Research Assistant | Mentor | University of Tennessee Health Science Center
11/2016 – 08/2017 | *Kyla Gibney | Postbaccalaureate Research Assistant | Mentor | University of Tennessee Health Science Center
01/2016 – 05/2020 | Alex Houck | Medical Student Research Assistant | Mentor | University of Tennessee Health Science Center
06/2016 – 09/2016 | *Hannah Russell | College Student Research Assistant | Mentor | University of Tennessee Health Science Center
06/2016 – 09/2016 | *Patrick Schumacher | College Student Research Assistant | Mentor | University of Tennessee Health Science Center
06/2016 – 06/2018 | Katie Huff | Medical Student Research Assistant | Mentor | University of Tennessee Health Science Center
06/2017 – 08/2017 | Elle McKenzie | College Student Research Assistant | Mentor | University of Tennessee Health Science Center
06/2017 – 08/2017 | Samantha Thomas | College Student Research Assistant | Mentor | University of Tennessee Health Science Center
09/2017 – 05/2018 | *Ellen O'Connor | Postbaccalaureate Research Assistant | Mentor | University of Tennessee Health Science Center
09/2017 – 12/2017 | *Garrett Young | Postbaccalaureate Research Assistant | Mentor | University of Tennessee Health Science Center
10/2017 – 06/2018 | *Sarah Shore | Postbaccalaureate Research Assistant | Mentor | University of Tennessee Health Science Center
06/2018 – 08/2019 | *Hyung-Jun Kim | Medical Student Research Assistant | Mentor | University of Tennessee Health Science Center
06/2018 – 9/2023 | Daniel Ma | Medical Student Research Assistant | Mentor | University of Tennessee Health Science Center

09/2018 – 06/2020 | Ian Snyder | Postbaccalaureate Research Assistant | Mentor | University of Tennessee Health Science Center
 09/2018 – 07/2021 | *Nicole Weber | Postbaccalaureate Research Assistant | Mentor | University of Tennessee Health Science Center
 06/2019 – 02/2022 | Patrick Devlin | Predoctoral student | Mentor | University of Tennessee Health Science Center
 06/2019 – 8/2023 | Leah Sommerville | Predoctoral student | Mentor | University of Tennessee Health Science Center
 09/2019 – 10/2022 | Emily Pabst | Medical Student Research Assistant | Mentor | University of Tennessee Health Science Center
 03/2020 – 09/2022 | Roxana Parada | Undergraduate student | Mentor | University of Tennessee Health Science Center
 08/2021 – 02/2022 | Maribel Lopez | Postbaccalaureate student | Mentor | University of Tennessee Health Science Center
 03/2022 – 07/2022 | Apolline Savarit | Master's degree student | Mentor | NYU Langone
 06/2022 – Present | Hahns Lutterodt | High School Student | Mentor | NYU Langone
 06/2023 – Present | Isabel Stobin | Undergraduate student | Mentor | NYU Langone
 06/2023 – Present | Rachel Lief | Undergraduate student | Mentor | NYU Langone
 08/2023 – Present | Mabel Ince | High School Student | Mentor | NYU Langone

Predominant student papers listed and/or mentored

10/2004 – 12/2004 | *Nathan Tagg, M.D. | Resident | Neurology | Mentor
 03/2005 – 6/2008 | *Anca Preda, Ph.D. | Postdoctoral fellowship | Neurology | Uniformed Services University of the Health Sciences | Mentor
 10/2014 – 12/2015 | *Derek Bauer, M.D. | Resident | Neurology | Mentor
 09/2016 – 12/2017 | *Joseph Arizpe, Ph.D. | Postdoctoral fellowship | Neurology | Mentor
 01/2017 – 11/2021 | *Jennifer Prywell, Ph.D. | Postdoctoral fellowship | Neurology | Mentor
 05/2022 – Present | *Violeta Pellicer-Morata | Postdoctoral fellowship | Neurology | Mentor
 11/2022 – 5/2023 | Monika Ambrus, M.D. | Postdoctoral fellowship | Neurology | Mentor

Faculty mentored

6/2009 – 6/2012 | *Justin Campbell, Ph.D. | Psychology | Assistant Professor
 6/2012 – 10/2019 | *Francis Haran, Ph.D. | Psychology | Assistant Professor
 6/2014 – 1/2017 | *Wai Yu Chan, Ph.D. | Neurology | Assistant Professor

Institutional, Local/National Service and Related Activity

Institutional Service

10/2001– 06/2004 | Naval Hospital Jacksonville Credentials Committee | Chairman from 09/2002 to 06/2004 (Supervision of a committee of 13 members to grant hospital privileges to physicians and ancillary support staff)
 06/2002 – 05/2004 | Naval Hospital Jacksonville Military Liaison to Duval County (Florida) Medical Society

Emergency Preparedness Committee (Coordination with county medical society on a wide range of health care issues)

06/2002 – 03/2004 | Naval Hospital Jacksonville Pharmacy and Therapeutics Committee | Member

09/2002 – 06/2004 | Naval Hospital Jacksonville Executive Committee of the Medical Staff | Vice-Chairman

08/2004 – 05/2005 | Uniformed Services University of the Health Sciences Medical Student Promotion Committee | Ad hoc member

06/2005 – 06/2014 | Medical School Admissions Committee, Uniformed Services University of the Health Sciences | Member

08/2005 – 06/2008 | Faculty Senate and Education Committee, Uniformed Services University of the Health Sciences | Member

09/2005 – 06/2008 | Dean's Advisory Group, Uniformed Services University of the Health Sciences | Member

05/2006 – 07/2008 | IRB, Uniformed Services University of the Health Sciences | Member

10/2006 – 01/2009 | IACUC, Uniformed Services University of the Health Sciences | Member

09/2007 – 06/2008 | Constitution and Bylaws Committee, Faculty Senate, Uniformed Services University of the Health Sciences | Chair

Professional Service

02/2006 – 08/2007 | Member | DoD-VA Working Group for Stroke Treatment Guidelines

04/2006 – 04/2009 | Secretary | Government Services Section, American Academy of Neurology

04/2009 – 04/2012 | Educational Programs Coordinator | Government Services Section, American Academy of Neurology

04/2009 – 04/2015 | Member | Practice Committee, American Academy of Neurology

04/2009 – 02/2013 | Chair | Telemedicine Work-Group, American Academy of Neurology

04/2010 – 04/2012 | Chair-Elect | Government Services Section, American Academy of Neurology

08/2010 – 06/2014 | Member | NATO Human Factors and Medicine (HFM) 193 Panel – Mild Traumatic Brain Injury in a Military Operational Setting

04/2012 – 04/2014 | Chair | Government Services Section, American Academy of Neurology

03/2018 – Present | Chair | NATO Human Factors and Medicine (HFM) 166 Exploratory Team – Evaluation of Treatments of Post-amputation Phantom Limb Pain

01/2019 – Present | Member | Brain Injury Medicine Committee | American Board of Physical Medicine and Rehabilitation

11/2019 – 08/2022 | Member | Behavioral Neurology & Neuropsychiatry Program Requirements Review and Milestone Development Task Force | United Council for Neurologic Subsidiaries

Peer Review Groups, Grant Application Review Groups, and Study Sections

03/2005 – 06/2008 | Member | Brain Study Group I | American Heart Association

05/2008 – Present | Ad hoc reviewer (Grant reviews) | Nemours Biomedical Research

11/2008 – Present | Ad hoc reviewer | Deployment Related Medical Research Program

02/2012 – 06/2015 | Ad hoc reviewer (Grant reviews) | Center for Neuroregenerative Medicine, Uniformed Services University

04/2013 – Present | Ad hoc reviewer (Grant reviews) | Department of Veterans Affairs Rehabilitation Research and Development Service Small Projects in Rehabilitation Research (SPiRE)

12/2013 – 12/2013 | Ad hoc member | NIH Study Section 2014/01 ZNS1 SRB-B (39) – TBI Legacy Data for FITBIR

06/2014 – 06/2015 | Ad hoc member | NIH Acute Neural Injury and Epilepsy Study (ANIE) Study Section

02/2015 – Present | Ad hoc reviewer | Department of Veterans Affairs Rehabilitation Research and Development Service Study Section – Musculoskeletal/Orthopaedic Rehabilitation

07/2015 – 06/2021 | Member | NIH Acute Neural Injury and Epilepsy Study (ANIE) Study Section

Advisory Panels and Consultant Positions

11/2009 – 04/2011 | Member | Integration Panel, Amyotrophic Lateral Sclerosis Research Program | Congressionally Directed Medical Research Programs

08/2011 – 08/2016 | Member | Integration Panel, Traumatic Brain Injury/Alzheimer Disease Research Program | US Army Medical Research and Materiel Command

11/2012 – 06/2019 | Member | Government Steering Committee | DoD-VA Chronic Effects of Neurotrauma Consortium

11/2020 – Present | Member | Issues Committee | National Navy Reserve Policy Board

Course Director Roles in Scientific Meetings

04/2006 | Course Director | Rehabilitation of Traumatic Neurological Injuries | American Academy of Neurology Annual Meeting | San Diego, CA

04/2008 | Course Director | Diagnosis and Treatment of Traumatic Brain Injury | American Academy of Neurology Annual Meeting | Chicago, IL

04/2012 | Course Director | Neurology Telemedicine Systems | American Academy of Neurology Annual Meeting
| New Orleans, LA

03/2013 | Course Instructor | Teleneurology and Technologies | American Academy of Neurology Annual Meeting
| San Diego, CA

04/2014 | Course Director | Concussion in the Military and in Sports | American Academy of Neurology Annual Meeting | Philadelphia, PA

06/2015 – 01/2020 | Chair – NATO Human Factors and Medicine (HFM) 240 Lecture Series – Mild Traumatic Brain Injury in a Military Operational Setting | Memphis, TN; Budapest, Hungary; Paris, France; Tallinn, Estonia; Rome, Italy; Madrid, Spain; London, UK

Editorial and Journal Positions

06/1985 – 06/1987 | Harvard Model Congress President (1986-87), Chairman of the Board (1986-87), Treasurer (1986-87), and Founding Member (1985)

04/1989 – 09/1992 | Non-resident Premedical Tutor, Winthrop House, Harvard College, Cambridge, MA

04/1992 – 04/1993 | St. John's College Middle Common Room President

09/1993 – Present | Alumnus Interviewer, Office of Admissions, Harvard College, Cambridge, MA

06/1997 – 06/1998 | San Francisco Veterans Administration Medical Center Home-Based Primary Health Care Clinic (Physician house visits to treat home-bound patients)

09/2003 – 07/2011 | Space Operations Medical Support, NASA (Physician support to Space Shuttle)

35. **Tsao JW**, van der Brug M, Chatterjee M, Wishart TM, Gillingerwater TH, and Cookson M. Changes in cerebellar mRNA in the C57BL/6JdS mouse. Presented at the 36th Annual Meeting of the Society for Neuroscience, October 14-18, 2006, Atlanta, GA.
36. **Tsao JW**, Witt R, Chan BL, and Pasquina PF. Use of mirror-box therapy to treat lower limb phantom pain. Presented at the 9th International Conference on the Mechanisms and Treatment of Neuropathic Pain, November 2-4, 2006, Southampton, Bermuda.
37. **Tsao JW**, Chan BL, Witt R, Howard R, Charrow A, Magee A, Pasquina PF, and Heilman KM. A randomized sham-controlled trial of mirror therapy for lower limb phantom pain demonstrates efficacy of mirror therapy. Presented at the 2nd International Congress on Neuropathic Pain, June 7-10, 2007, Berlin, Germany. *European Journal of Pain* 2007;11(Suppl. 1):S205-S206.
38. Chan BL, Witt R, Howard R, Charrow A, Magee A, Pasquina PF, Heilman KM, **Tsao JW**. A randomized controlled trial of mirror therapy for lower limb phantom pain demonstrates efficacy of mirror therapy. Presented at the 4th World Congress of the International Society of Physical and Rehabilitation Medicine, June 10-14, 2007, Seoul, South Korea.
39. Chan BL, Witt R, Charrow A, Howard R, Magee A, Pasquina PF, Heilman KM, and **Tsao JW**. A randomized trial of mirror therapy for lower limb phantom pain. Presented at the 131st Annual Meeting of the American Neurological Association, October 7-10, 2007, Washington, DC. *Annals of Neurology* 2007;62(Suppl. 11):S32-S33.
40. Preda AM, Beilina A, Cookson MR, and **Tsao JW**. Gene changes associated with WldS expression in the C57BL/6JdS slow Wallerian degeneration mouse. Presented at the 37th Annual Meeting of the Society for Neuroscience, November 3-8, 2007, San Diego, CA.
41. Janos A, Mielke J, Heilman KM, and **Tsao JW**. Comparison of cognitive testing methods for the detection of blast-related traumatic brain injury. Presented at the 36th Annual Meeting of the International Neuropsychological Society, February 6-9, 2008, Waikoloa, HI.
42. Liu N, Hua J, Swanberg K, and **Tsao JW**. Development of a military neurology telemedicine system. Presented at the 13th Annual International Meeting & Exposition, American Telemedicine Association, Seattle, WA, April 6-8, 2008. *Telemedicine and e-Health* 2008;14(Suppl. 1):76.
43. **Tsao JW**, Shah RC, Leurgans SE, Wilson RS, Janos AL, Wei P, Bennett DA, and Heilman KM. Impaired cognition in normal individuals using medications with anticholinergic activity occurs following several years. Presented at the 60th Annual Meeting, American Academy of Neurology, Chicago, IL, April 12-19, 2008. *Neurology* 2008;70(Suppl. 1):A418.
44. Levinn RL, **Tsao JW**, Adler-Wailes DC, Wijesinghe CA, Jefferson-George KS, Rennert OM, Yanovski JA,

- and Han JC. BDNF Haploinsufficiency in patients with WAGR syndrome is associated with decreased behavioral responses to pain. Presented at the Pediatric Academic Societies' Annual Meeting, Honolulu, HI, May 2-6, 2008.
45. Clark AM, Chan BL, Heilman KM, and **Tsao JW**. Attentional biases with upper, but not lower, limb amputation. Presented at the International Neuropsychological Society, Sociedad de Neuropsicologia de Argentina, Joint Mid-Year Meeting, July 2-5, Buenos Aires, Argentina. *Journal of the International Neuropsychological Society* 2008;14(Suppl. 2):128-129.
 46. Dumanis SB, Preda AM, van der Brug M, Wei P, Cookson MR, and **Tsao JW**. Age-related gene expression changes in the C57BL/WldS slow Wallerian degeneration mouse. Presented at the 6th Forum of European Neuroscience, July 12-16, 2008, Geneva, Switzerland.
 47. Janos AL, Shah RC, Wei P, Leurgans SE, Wilson RS, Bennett DA, Heilman KM, and **Tsao JW**. Use of medications with greater anticholinergic potency leads to greater impairment of cognition in normal individuals. Presented at the 132nd Annual Meeting of the American Neurological Association, September 21-24, 2009, Salt Lake City, UT. *Annals of Neurology* 2008;64(Suppl. 12):S43.
 48. Dumanis SB, Preda AM, van der Brug M, Wei P, Cookson MR, and **Tsao JW**. Gene expression changes with advancing age in the C57BL/WldS slow Wallerian degeneration mouse. Presented at the 38th Annual Meeting of the Society for Neuroscience, November 15-19, 2008, Washington, DC.
 49. Han JC, Wei P, Hyde TM, Lipska BK, Wang L, Liu QR, Danley KM, **Tsao JW**, Uhl GR, Kleinman JE, and Yanovski JA. Association between human hypothalamic expression of brain-derived neurotrophic factor (*BDNF*) and body mass index (BMI). Presented at Keystone Symposium on Obesity: Novel Aspects of the Regulation of Body Weight in Banff, Alberta, Canada, January 20-25, 2009.
 50. Hussey-Andersen L, Hughes KE, and **Tsao JW**. Analysis of mirror therapy efficacy in the treatment of different phantom limb pain characteristics. Presented at the 5th World Congress of the World Institute of Pain, New York, NY, March 13-16, 2009. *Pain Practice* 2009;9(Suppl. 1):61.
 51. Weeks S, Pasquina PF, and **Tsao JW**. A control method for advanced upper extremity prostheses using pattern recognition and virtual reality. Presented at the 14th Annual CyberTherapy & CyberPsychology Conference, June 21-23, 2009, Lago Maggiore, Italy. *Frontiers in Neuroengineering. Conference Abstract: Annual CyberTherapy and CyberPsychology 2009 conference*. doi: 10.3389/conf.neuro.14.2009.06.100
 52. Han JC, Hyde TM, Lipska BK, Wang L, Liu QR, Ong CJ, **Tsao JW**, Uhl GR, Kleinman JE, and Yanovski JA. Human body mass index and region-specific differences in hypothalamic expression of brain-derived neurotrophic factor (*BDNF*). Presented at the Obesity Society's 27th Annual Scientific Meeting, Washington, D.C., October 24-28, 2009.
 53. Han JC, Wei P, Hyde TM, Lipska BK, Wang L, Liu QR, Danley KM, Ong CJ, **Tsao JW**, Uhl GR, Kleinman JE, and Yanovski JA. Body mass index (BMI) and human hypothalamic brain-derived neurotrophic factor (*BDNF*) Expression. Presented at the Endocrine Society's 91st Annual Meeting, Washington, DC, June 10-13, 2009.
 54. Carr W, Stone JR, Young, LA, Walilko T, Parish RV, Eonta S, Jankosky CJ, and **Tsao JW**. Breacher injury study: Neurocognitive testing results. Presented at the 28th Annual National Neurotrauma Symposium, June 14-17, 2010, Las Vegas, NV.
 55. Ong CJ, Han JC, Hyde TM, Lipska BK, Mou Z, **Tsao JW**, Kleinman JE, and Yanovski JA. Associations of single nucleotide polymorphisms (SNPs) in brain-derived neurotrophic factor (*BDNF*) with *BDNF* expression in human ventromedial hypothalamus (VMH) and with body mass index. Presented at the Obesity Society's 28th Annual Scientific Meeting, San Diego, CA, October 8-12, 2010, *Obesity* 2010;18(Suppl. 2):S61-S62.
 56. Han JC, Huey AE, Marshall JD, Maffei P, Tsang MM, Wolde MG, Fuhr SR, Stern EA, Brady SM, **Tsao JW**, Milan G, Naggert J, Yanovski JA. Higher leptin concentrations in patients with Alstrom syndrome as compared to BMI-Z matched controls are suggestive of ciliopathy-associated leptin resistance. Presented at the Obesity Society's 29th Annual Scientific Meeting, Orlando, FL, October 1-5, 2011, *Obesity* 2011;19(Suppl. 1):S72.
 57. Mou Z, Morgun E, Hyde TM, Lipska B, Ong CJ, Marshall LJ, Ali AH, Stern EA, **Tsao JW**, Kleinman JE, Yanovski JA, Han JC. The brain-derived neurotrophic factor (*BDNF*) SNP rs12291186 minor C allele is positively associated with BMI, negatively associated with *BDNF* expression in human ventromedial hypothalamus (VMH), and alters yin-yang 1 (*YY1*) transcription factor binding. Presented at the Obesity Society's 29th Annual Scientific Meeting, Orlando, FL, October 1-5, 2011, *Obesity*, 2011, 19 (Suppl. 1): S94.

Presented at the 42nd Annual Meeting of the Society for Neuroscience, Washington, DC, November 12-16, 2011.
59. Chan AW, **Tsao JW**, Baker CI. Cortical reorganization, phantom pain, and mirror therapy. Presented at the 9th Annual World Congress for Brain Mapping and Image Guided Therapy, Toronto, Canada, June 2-4, 2012.
60. **Tsao JW**, Chan A, Elkins V, Weeks S, Hussey-Anderson L, Hughes K, Shaffer M, Wolde M, Gilmer H, Pasquina PF, Baker C. Functional imaging of mirror therapy treatment of phantom limb pain. Presented at the 15th World Congress of Pain Clinicians, Granada, Spain, June 27-30, 2012.
61. Alphonso AL, Monson BT, Zeher MJ, Armiger RS, Weeks SR, Burck JM, Moran C, Davoodie R, Loeb G, Pasquina PF, **Tsao JW**. Use of a virtual integrated environment in prosthetic limb development and phantom limb pain. Presented at the 17th Annual CyberPsychology & CyberTherapy Conference, Brussels, Belgium, September 25-28, 2012.
62. Haran J, Campbell JS, Creason A, Alphonso AL, Wolde M, **Tsao JW**. Decrements in post-deployment automated neurocognitive testing performance in Marines. Presented at the 41st Annual Meeting of the International Neuropsychological Society, Waikoloa, HI, February 6-9, 2013.
63. Campbell JS, **Tsao JW**, Alphonso AL, Haran J, Creason A. Source of injury differentiates concussed from non-concussed Marines returning from combat deployments. Presented at the 41st Annual Meeting of the International Neuropsychological Society, Waikoloa, HI, February 6-9, 2013.
64. Perry BN, Hussey-Andersen LK, Hughes KE, Weeks SR, Merritt VC, Pasquina PF, **Tsao JW**. Mirror therapy as a phantom limb pain treatment for upper-extremity amputees. Presented at the 23rd Meeting of the European Neurological Society, Barcelona, Spain, June 8-11, 2013. *Journal of Neurology* 2013;260(Suppl. 1):S19.
65. Perry BN, Wolde M, Howard RS, Haran J, Campbell J, Creason A, Sher C, Stentz L, **Tsao JW**. Effect of concussion and blast exposure on clinical symptoms following deployment of U.S. military personnel. Presented at the 66th Annual Meeting, American Academy of Neurology, Philadelphia, PA, April 26-May3, 2013.
66. Finn S, Perry B, Clasing J, Walters L, Jarzombek S, Curran S, Rouhanian M, Pasquina P, **Tsao J**. Mirror therapy is effective for treating upper extremity phantom pain. Presented at the Myoelectric Controls Symposium 2017, Fredericton, Canada, August 15-18, 2017.
67. Weber NK, **Tsao JW**. Headache Treatment Outcomes Following Conversion from Botox to Dysport. Presented at the 62nd Annual Meeting of the American Headache Society, June 13, 2020.
68. Pellicer-Morata V, Wang L, de Jongh Curry A, **Tsao JW**, Waters RS. Rapid and delayed forelimb to lower jaw remapping in rat forepaw barrel subfield (FBS) in primary somatosensory cortex (SI) following forelimb deafferentation. Presented at the 51st Annual Meeting of the Society for Neuroscience, San Diego, CA, November 12-16, 2022.
69. Wang L, Pellicer-Morata V, de Jongh Curry A, **Tsao JW**, Waters RS. Lower jaw barrel subfield (LJBSF) in rat somatosensory cortex provides a source of lower jaw input in the anterior forepaw barrel subfield (FBS) immediately following forelimb deafferentation. Presented at the 51st Annual Meeting of the Society for Neuroscience, San Diego, CA, November 12-16, 2022.
70. de Jongh Curry A, Wang L, **Tsao JW**, Waters RS. Removal of GABAergic inhibition unmasks input from lower jaw barrel subfield (LJBSF) to forepaw barrel subfield (FBS) in rat primary somatosensory cortex (SI). Presented at the 51st Annual Meeting of the Society for Neuroscience, San Diego, CA, November 12-16, 2022.
71. Waters RS, **Tsao JW**, Wang L. The ventral posterior lateral (VPL) thalamic nucleus does not serve as a substrate for rapid lower jaw-to-forepaw reorganization in the anterior forepaw barrel subfield (FBS) in rat primary somatosensory cortex (SI). Presented at the 52nd Annual Meeting of the Society for Neuroscience, Washington, DC, November 11-15, 2023.
72. de Jongh Curry A, Wang L, **Tsao JW**, Waters RS. Removal of GABA_B inhibition fails to unmask lower jaw input in the forepaw barrel subfield (FBS) in rat primary somatosensory cortex (SI). Presented at the 52nd Annual Meeting of the Society for Neuroscience, Washington, DC, November 11-15, 2023.
